## Main Capabilities & Programs

Flash programmer and animator (AS2 & AS3), team leader & supervisor, object-oriented programming & programmatic physics, programmatic and GUI-based 3D (Cinema 4D, PaperVision 3D), After Effects artist, mobile application prototyping, WordPress development, HTML/CSS/JavaScript developer and some backend experience.

## Experience

### Hill | Holliday

Creative Technical Lead & Sr. Flash Developer

New York, NY & Boston, MA

*September 2006 – October 2011*

- Develop microsites, websites, standard and rich banners in Flash using AS2 & AS3 (procedural and object-oriented programming) and timeline animation. Use third party and self-coded libraries for programmatic physics and 3D. Create data driven Flash projects. Mobile device prototyping.
- Expert in production process and filesize/performance optimization for all types of Flash banners.
- Work closely with creative teams, developers, animators, producers, account teams, and rich and standard media vendors (Pointroll, Double Click, Media Mind and others) to ensure projects are delivered within allotted time frames and meet high quality standards.
- Supervise and mentor team of developers, animators and freelancers.
- Create digital-out-of-home advertising units including animated billboards, Captivate screens and Times Square billboards.
